

MANAGED WI-FI SOLUTIONS

MANAGED WI-FI SOLUTIONS FOR SCHOOLS

With the introduction of iPads, tablets and laptops to the classroom, there has never been a more important time to ensure effective wireless solutions in your school, especially with the advent of BYOD (Bring Your Own Device) schemes.

Strong, safe and reliable Wi-Fi coverage is a vital requirement for schools embracing digital learning in classrooms. Managed Wi-Fi solves the most common problems of:

- Slow login times
- Patchy coverage
- Dropped connections

WI-FI ACCESS IN EVERY CLASSROOM

Patchy Wi-Fi internet access disrupts classrooms. Our wireless networks are designed to give you appropriate Wi-Fi signal strength and coverage in every classroom so students can participate in digital learning.

WIRELESS NETWORK INSTALLER

We use market leading WLAN technologies, built for large organisations like schools. The technology is simple for schools to manage and fast to deploy, whilst delivering the reliability and intelligent performance we believe you should be expecting.

SPEEDY INTERNET

When the whole school is sharing Internet bandwidth, every single possible gain in speed can make a tremendous difference to the quality of access and learning for students and staff.

CHALLENGE US TO IMPROVE YOUR WI-FI

The Wi-Fi network is now a key part of your school infrastructure. Don't let it hold you back – ask us about our Wi-Fi management solutions for schools today. **Call us on 0118 936 0080 today and we'll be happy to answer your questions.**
